Advantages

- \+ Hygienic hand disinfection
- \+ Ready to use
- \+ Comprehensive range of effects

Properties
Dermatologically tested, very good skin compatibility even with very frequent use, no added fragrances, dyes or other additives, extremely short contact times, bactericidal, fungicidal, tuberculocidal, limited virucidal, limited virucidal PLUS, virucidal

Preparation type
Skin-friendly disinfectant for application to hands and for preparing compresses. Provides broad spectrum of activity against bacteria including tuberculosis, fungi (Candida albicans), and all enveloped viruses such as HIV, HBV, HCV, influenza viruses, etc., within a very short time.

Areas of application
Clean and dry your hands before disinfection. Apply a sufficient amount of hand sanitizer to your hands. Keep hands moist for the entire contact time and reapply if necessary. Thoroughly wet your hands, including the corners of your fingers and skin folds.

Hygienic hand disinfection: For hygienic hand disinfection, rub the solution into your hands and keep them moist for 30 seconds, according to the contact time.

Surgical hand disinfection: For surgical hand disinfection, rub the solution into your hands and forearms and keep them moist for the specified contact time.

Instructions for use
Hygienic and surgical hand disinfection
